# **PURE REFRESHMENT AT THE PUSH OF A BUTTON**

**DSM, DIM & DCM SERIES**

**Ice and/or water dispensers**

# THE RAPID FRESH MAKERS

## WATER & ICE – IS THERE A BETTER TEAM?

Dispensers play a crucial role when business owners want to provide ice and/or water for self-service. The three steps of quality ice production, protected ice storage and the quick service of ice are all combined in one device – with the help of only one button your refreshment is ready in seconds. Most commonly, Hoshizaki dispensers are used, where a quick, efficient, and food-safe serving of ice-water combinations is needed.

### USAGE AREAS

Hospitality

Catering

Healthcare

Marine

Education

## OUR DISPENSERS ARE

### EASY FIT

Our dispenser portfolio accommodates suitable appliances for different requirements regarding serving amounts, storage capacity and space limitations.

### SUSTAINABLE

Waste control for more sustainability; these dispensers allow intuitive portion control. This helps to regulate the consumption of ice among end-user, reducing overall energy consumption and waste. Besides, the use of natural HC refrigerant R290 cuts down the overall energy consumption of these dispensers.

### FOOD SAVE

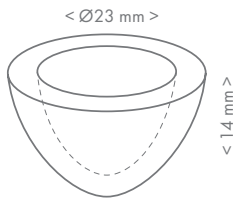

As with all Hoshizaki machines, hygiene, food safety and contamination protection play a major role. Dispensers are operated by consumers directly. In order to eliminate health risks, the machines are designed to never let air or water hit the freshly produced ice, while stored.

# ABOUT THE RANGE

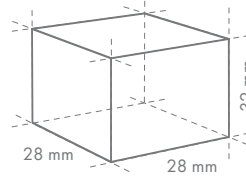

## SHUTTLE ICE

Ice type: Shuttle  
Weight: 3 g

## CUBE ICE

Cube Size: **L**  
Weight: 23 g

**DSM DISPENSER** is a compact and reliable appliances that produce and serve high quality shuttle ice. The simple design and smart features, for food safety and against contamination, make the DSM dispenser popular for hospitals and health care institutions.

### KEY FEATURES

- ✓ DSM-12DE is a dispenser that produces shuttle ice
- ✓ The most compact dispenser in our range
- ✓ Portion control can be set easily
- ✓ Reducing energy consumption and waste

**DIM DISPENSER** produces and provides the famous Hoshizaki cubes for handy self-service. What makes this dispenser so popular is its convenient portion control, which can be set easily. This allows you to precisely regulate the serving sizes. This range of self-serve dispensers is often placed in hotels, positioned on each floor, to provide guests with quality ice all around the clock.

### KEY FEATURES

- ✓ DIM-40DE-HC produces cubed ice
- ✓ Using natural refrigerants (hydro carbon)
- ✓ Ideal for self-serving environment
- ✓ Portion control can be set easily

**DCM DISPENSER** can produce the following combinations:

- cubelet ice only
- cubelet ice and water
- water only

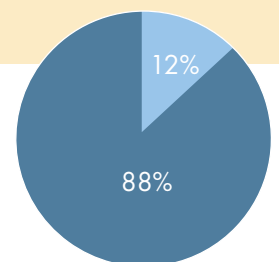

The production capacities of these compact, yet powerful ice/water dispensers range from 60 kg a day for smaller businesses to up to 230 kg a day for sizable venues, such as amusement parks, hotel resorts and large-scale quick serve environment.

### KEY FEATURES

- ✓ DCM-60KE(-P) / DCM-120KE(-P)
- ✓ Touchfree usage
- ✓ Water consumption is equal to ice production
- ✓ Ideal for self-serving environment
- ✓ Lever design minimize the risk of bacterial transfer

*Cubelet Ice is highly versatile and a staple for different market segments and business types, such as hotels, food production, bars and restaurants.*
